Biodynamic® 101:

✦ Rudolf Steiner ✦

Rudolf Steiner (1861-1925), Austrian scientist, philosopher & the founder of Waldorf schools, held a series of eight lectures in 1924 in response to Europe's rapid decline of crop vitality & animal health. His insights laid the foundation for Biodynamic Agriculture: farm & food healing humankind. Steiner presented the farm, not as a factory, but as a living organism connected to the cosmos.

AMERICA'S 1st DEMETER, CERTIFIED
BIODYNAMIC® WINERY

Tight clusters of Petite Sirah yield fruit that is packed with flavor. Aged on French oak, this wine reveals a richly textured mix of black currant, dried berry, loamy earth and sage. Enjoy with Mediterranean cuisine or a roasted root vegetable ragout.

Our vineyards are located at the headwaters of the Russian River in beautiful Mendocino County. Our Biodynamic wines are crafted in harmony with the rhythms of nature and fermented on native yeasts without chemical pesticides or preservatives. As three generations of organic farmers and winemakers, we find that our care and respect for the earth is reflected in the expression of purity and true terroir in our wines.
