Grapes

*"A peaceful gaze, a quiet consistency,
in each season, in each hour to do only that which is
necessary is perhaps required from no one other than Gardeners."*

In this quote J.W. v. Goethe perfectly expresses our philosophy as wine makers.
We use primarily only natural preservatives and fertilisers to keep our grapes healthy and
full of vitality. The grapes mature in our cellars without artificial additives or new technologies
- instead they receive only our love and time.

Love

*"Only those whom one loves,
does one truly understand!"*

Respectfully we strive to work with nature.
Disease and spoiling have lost their negative
connotations with us as they are an important
indication of climate change or problems with
our cultivation techniques.

Time

The correct quantity,
"A perfect ripeness requires time"
This applies equally to time on the vine as
well as in the barrel. A mix of experience and
informed judgement helps us to decide when
the time is right.

We are equally as passionate about taking time to savour our wines, to enjoy the perfect
symphony of liveliness, salubriousness and sustainability. Ideally this wine should
be decanted and enjoyed at approximately 15° C.

To your health and pleasure
with this wine year.
