HOURS

It takes time to make wine, and more of it to make great wine. It's even been said that it takes 10,000 hours of practice to become a master of something. Although the hours we've spent working the land, tending the vines and crafting the wine itself have likely eclipsed that number, it may still seem presumptuous to have named our wine as we have. Thus, we invite you to enjoy a bottle, and judge for yourself.
