ZaHa means "HEART" in the local Huarpe Indian language of Mendoza. This wine is meant to represent the "HEART" of the privileged terroir of Mendoza. The high altitude (4,000' elevation), cool climate growing area of Mendoza has a very unique soil profile which is at the "HEART" of ZaHa.

The soils of Mendoza are very diverse, with patches of sandy, rocky and silty soils dispersed throughout the vineyard. At the moment of harvest, each soil profile imparts distinct aromatic, flavor and texture profiles to the Cabernet Franc fruit – floral and fresh herb notes in the sandy patches; finely grained tannins in the rocky patches; highly concentrated red forest berries in the silty patches. The combination of these profiles lends excellent complexity to the final wine.
