GRENADA RUM
PAR EXCELLENCE

The rum distilling and blending tradition in Grenada dates back to the 17th Century.

Ever since those early days, we have blended spirits of different ages and character to create unique rum that is distinct and smooth.

Keeping with tradition, **Canne Royale** is made according to our centuries old method where each batch is precisely blended with only ingredients of the highest quality.

Our process demands that **Canne Royale** be first aged in wooden barrels, and then the various components are allowed to marry in specially selected toasted barrels after blending, resulting in a second maturation, that is unmatched.

GOVERNMENT WARNING: (1) According to the surgeon general, women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. (2) Consumption of alcoholic beverages impairs your ability to drive a car or operate machinery, and may cause health problems.
