Collecappretta

Vittorio Mattioli agricoltore e poi
vignaiolo in Terzo la Pieve

Lautizio

Bottiglia prodotta 1698

Vino rosso dal colore rubino luminoso ottenuto
da uve di Ciliegiole di vigneti che vanno dai 15
ai 50 anni. Il mosto fermenta per 10 giorni
sulle bucce con i lieviti indigeni in tini tronco
conici aperti a temperatura libera; poi viene
svinato e messo in una botte di vetro cemento
dove riposa tutto l'inverno. grazie alla favorevole
vendemmia, il vino ha subito un solo travaso per
eliminare le fecce grosse, viene imbottigliato
direttamente con la luna calante di fine marzo
per preservare la bassa dose di solforosa naturale
svilupata. Non si aggiunge solforosa in nessuna
fase della lavorazione né in imbottigliamento.
In vigna si seguono principi di assoluta natu-
ralità mirati alla custodia della vita della terra.
