TEXAS ALCOHOLIC BEVERAGE COMMISSION

Born out of a desire to reduce the environmental burden of whiskey production, Austonian Whiskey is matured using only a small fraction of the natural resources needed for traditional barrel aging. While oak barrels have done the job for centuries, the substantial amount of wood needed to maintain this traditional aging process is simply not sustainable. We've developed a special, natural process, which uses just a small amount of oak to produce a high quality whiskey with a rich and lively flavor profile.
