There's nothing like the taste of that first peach of the Summer. At Joshua Farm we look forward to it all year. This year we had such a hard time being patient, that we decided to take that "First Peach" taste and combine it with our Honey Wine. As always, our wines are made naturally without harmful chemicals or sulfites. If you have to wait all year for that first peach, our Peach Mead sure makes the wait much easier and it's always in season.

Bee sure to share a bottle with your Honey!
