TEXAS ALCOHOLIC BEVERAGE COMMISSION

2014
ACTEA
MONASTRELL

The large number of fossilized sea shells that are found in the rocky soils of the vineyards is proof that what was once a prehistoric seabed is now the limestone soil where the vines for Actea are grown.

The chalky soils combine with the harsh arid climate to create the perfect environment for the Monastrell grape. Only here can the varietal achieve full maturity, deep color and rich flavor complexity.

750 ML. ALC. 13.5% BY VOL.
