Finished in Oregon Oak Barrels

750ML

Our Dean Guy Whiskey is distilled and loaded into new
Oregon Oak barrels that we build by hand in our
Rolling Thunder coopering facility in Newport, Oregon.

The whiskey is then transferred out of these barrels
and our Rolling Thunder Imperial Stout is added.
After our stout is infused from the barrels and
bottled, we transfer the whiskey back into the
barrels for finishing. The finished product starts
with the light and fruity notes of a traditional single
malt and finishes with the caramel, molasses and
vanilla notes found in our stout.
