The bees know how to make honey. We know how to make beer. It only seemed right that we get together and make a truly buzzworthy beverage (Don't worry, we've got Dad puns for days). Make sure you've got plenty to share though. Its alluring honey sweet aroma is likely to attract quite a few two-legged friends, and maybe even a few with wings.

GOVERNMENT WARNING: (1) According to the Surgeon General, women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. (2) Consumption of alcoholic beverages impairs your ability to drive a car or operate machinery, and may cause health problems.
