CENTRAL COAST**

Rarely do you find new world wineries that start their projects with Chenin Blanc. As Field Recordings continues to evolve from our original site, the 1978 planting at Jurassic Park (34%), we were lucky enough to get fruit as well from the 1972 planting at Shell Creek (33%) and the 1981 planting at Martin Ranch & Vineyard (33%). Together they create a "vieilles vignes" blend representing a little slice of California's viticultural history.
