TEXAS ALCOHOLIC BEVERAGE COMMISSION

Texans Helping Businesses & Protecting Communities

The story of Barr Hill begins with a distiller and a beekeeper working together in one of the most beautiful, agricultural places on Earth, Northern Vermont. Ryan and Todd perfected the use of raw honey in their distillery, capturing the countless botanicals a honey bee forages into their spirits. The honey would always be kept raw to retain the character of the land that inspired them.

Barr Hill Vodka is distilled entirely from raw honey. First, our raw honey is carefully fermented in small batches, then gently distilled in our copper column still, named Phyllis, who stands proudly overlooking the Winooski River. The spirit which emerges is filled with the rhythms that flow through the seasons.
