GALACTIC HAZE IPA

CAPTAIN'S LOG, STAR DATE 305168
Our team of interplanetary brewers have returned from a successful mission on planet Alpha1013 in the Ariana system. They acquired the planet's indigenous hops, which we have named Ariana for its parent star. The brewers included these hops in this beer resulting in an IPA with intense tropical fruit flavor and aroma with hints of grapefruit, mango, peach, and vanilla. It is our pleasure, nay, duty, to bring you Galactic Haze IPA.

We will continue our mission to explore the galaxy in search of strange new hops to boldly use in our IPAs.
