Friends who know our story automatically know why we named our winery Broken X, but to others it may seem a little unorthodox. Well honestly, our family is a little unorthodox. In 2006, we were like any other family expecting their first child and were blessed with Jake. When Jake was two, he was diagnosed with Fragile X Syndrome, a genetic disorder that affects the X chromosome. Six years later we were blessed with our daughter Gracie who doesn't have the syndrome and isn't a carrier. Our entire journey is part of our inspiration to open a winery, and create something together. This winery and the names of some of our wines will reflect the strength and weaknesses of our family. Although we may be fragile we won't be broken.

Bottled by *Broken X Winery*, Brownfield, Texas

CONTAINS SULFITES 750 ML
