ADVANCE COMMITTEE RELEASE

Ardbeg

SUPERNOVA™

ISLAY SINGLE MALT SCOTCH WHISKY

ARDBEG SUPERNOVA, bottled at 'full' strength and non chill-filtered, is probably the peatiest whisky on the planet... if not the universe. This is a limited first release, exclusively for The ARDBEG Committee - the heroes of ARDBEG's meteoric rise to peaty power.

FLAVOUR CONSTELLATION

TECHNICAL WIZARDRY

Our boffins, who measure and calculate everything, used something called HPLC (HIGH Performance Liquid Chromatography) to measure the peatiness of this very rare ARDBEG in infinitesimally precise amounts. After much test tube bubbling they told us what our taste buds had already suspected, that this mighty ARDBEG has a staggering peatiness level well in excess of 100 parts per million - way beyond the customary heavy peat levels found in our famed ARDBEG Ten Years Old. SUPERNOVA thus perfectly describes this 'stellar explosion' of flavours - and is an advance release (and reward) to Committee members for spreading the word about ARDBEG throughout the known universe and beyond.
