A Rare Bottling from Rare Barrels

While making the rounds of tasting our barrels, I recently discovered a cache of older Rumble casks that had been all but forgotten. This spirit inside was remarkable--rich, delicious, and unique. I carefully mingled the best of these barrels to create the bottle in your hand. The result is so special I think it deserves to be preserved in its natural state--unfiltered and at full barrel proof. Each Rumble Cask Reserve bottling is very small and is meant to express different facets of this unique spirit. I hope you enjoy the differences between each bottling of this Texas innovation as much as you enjoy the spirit inside the bottle.
