Our first release from the de Terra collection explores the nestled valley of Utopia, TX - a remote town surrounded by seemingly misplaced mountains in an otherwise flat plain. The enigmatic Texas Sotol plant (*dasylium*) is the focus of this first release, Desert Spirit. After days of steaming underground, the pale plant transforms into a lush caramel, exuding a delicious nose of rye bread and molasses. Its succulent leaves are peeled, fermented, and pot-stilled; revealing a unique spirit of subtle complexity and an essence of the mesmerizing valley in which the plants matured.

GOVERNMENT WARNING:
