Vinum Cellars was established in 1997 based on producing value oriented, varietal/appellation specific wines. Cabernet Sauvignon from the Napa Valley confirms our belief that only specific grape varieties should be grown within appellations that are ideally suited to the varietal.

This Cabernet Sauvignon is from a dry farmed, low yielding, hillside vineyard nestled with granite deposits. Each year this vineyard produces small, berry clusters of fully mature grapes from which we make wines of maximum concentration while preserving varietal distinction.
