

Oomph

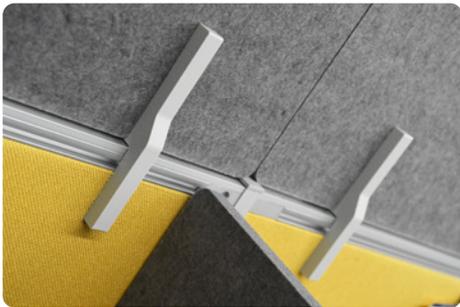

Sound Absorbing **Design Elements**

Acoustic Workstation **Panel Stackers**

Meeting new expectations

As we return to work, expectations have changed. There's a new focus on personal space and a fresh appreciation for privacy.

Companies and their spaces are compelled to adapt – and those adaptations should be designed to last. Clear acrylic was a quick fix, but meaningful solutions must look good and create a sense of security for the long term. We created Oomph because we don't think quiet and safe have to be sedate.

Installs easily

Oomph Acoustic Workstation Panel Stackers help you create effective work environments

- Define individual work area
- Mitigate noise
- Reduce unwanted visual distraction
- Enhance aesthetic
- Precisely fit every workstation system
- Install in seconds with tool-free adapters

Defines personal space.

Integrates with any workstation.

Visually warms the space with rich felt surfaces.

Quiet never looked so good.

With 20 colorways and warm felt textures, Oomph acoustic panel stackers provide a comfortable level of protection, mitigate noise, and reduce unwanted visual distraction, all with an aesthetic that enhances space.

Product Details

Description

Sound dampening acoustic panel with a rich felt finish

Material

100% Solution Dyed Polyester (PET)

Thickness

12 mm (1/2")

Color options

20 colorways ranging from brights to neutrals

Additional feature

Accepts tacks and pins

Fire Rating

ASTM E-84 - Class A

E-13501 - B-s2-d0
