

Seamlessly connecting conference room systems from different vendors with Office 365 and Skype for Business

Video Conferencing & Collaboration for Every Platform and Every Device

Communication and collaboration has become increasingly important in today's workplace. The greatest challenge in modern communications is the **integration across different devices, platforms and conferencing programs**. Get to know the state-of-the-art interoperability solution UC-Interop connecting Microsoft Office 365 and Skype for Business with other conferencing room systems enabling a seamless video and collaboration experience across devices and platforms - **on-premises, hybrid and cloud**.

KEY FEATURES

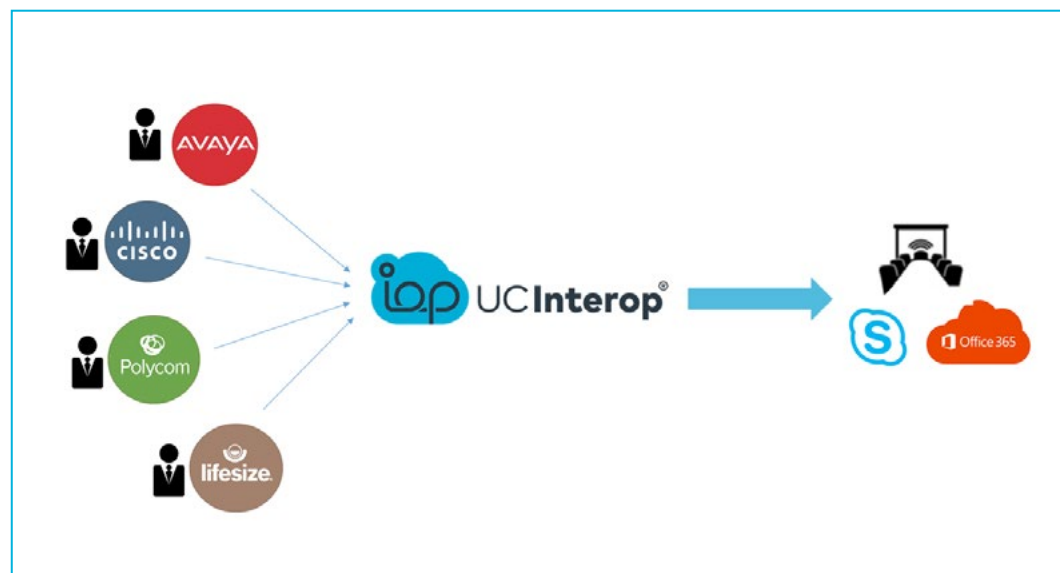

- UC-Interop enables communication of your conferencing systems across different conferencing platforms.
- Our flexible pricing model meets your individual needs.
- Incredibly easy to manage and use. No set up needed – just join with one click.
- Continuous, familiar layout.
- Easily share your content regardless of the different platforms
- Holistic conferencing and Skype for Business premium support – 24/7 worldwide.
- Best-in-class SLAs
- Hosted in highly secure German data center.
- UC-Interop has the highest Microsoft certification.

UC-Interop is a leading Microsoft Office 365 interoperability-solution for Skype for Business and Microsoft Office 365. UC-Interop enables Skype for Business meeting users to natively collaborate with business partners on other conferencing platforms with just one click.

In contrast to conventional "bridging" solutions, UC-Interop generates a seamless connection between Skype for Business and third-party conferencing platforms with zero configuration in your infrastructure.

UC-Interop simplifies the workflow for meeting participants increasing their quality of experience. It is the worldwide leading interoperability solution certified by Microsoft, Office 365.

Your benefits? UC-Interop is a cost-efficient, highly-scalable service that is hosted in highly-secure European data-centers. It protects your existing investments in your communications infrastructure and increases user adoption and usability.

Get to know our unique License Concept with Fair Use Policy – Be flexible, never get a “cannot join” !

Spearhead your video conferencing with UC-Interop and engage in seamless collaboration!

UC-Interop helps you to enable services for all users and reduces complex purchasing models. We believe in development and growth. This is why we want to support your company with a flexible pay-as-you-need consumption-based pricing model. Only pay for the licenses you really need at an attractive monthly rate!

Base Licenses

(Contract duration per year)

- Predefined number of licenses to choose from
- Several Base License Packages are available
- 4C, 7C, 10C, 20C

Fix Licenses

(Contract duration per year)

- To adjust the need of concurrent licenses, single Fix Licenses can be ordered on top of the Base Package

Flex Licenses

(Contract duration per month)

- To guarantee a continuity in service and avoid blocking users from dialing into conferences due to missing licenses, licenses will be booked automatically for the current month

Limitless flexibility with intelligent cost management

Keeping your budgets in mind, our UC-Interop Fair Use Policy automatically applies a “cost-parachute” to prevent unforeseen and uncomfortable expenditures.

- Predefined amount of flex licenses and agreed maximum licensing costs
- Once this limit is reached our “cost-parachute” applies and customers are not charged above the agreed cost maximum
- Based on our UC-Interop Fair Use Policy

HOW DOES OUR LICENSING WORK?

Q: I have 5 concurrent calls. What licenses do I need?

A: You book our Base License Package 4C to cover four calls and 1 Fix License.

Q: What licenses are needed for 9 concurrent calls?

A: For this, you will book our Base License Package 7C and 2 Fix License.

Q: I have 5 Concurrent Call Licenses contracted but there are 2 additional users for only one call. Can I still use UC-Interop?

A: Yes — UC interop will support joining the conference for the additional users. The two additional licenses needed for this call are valid for the current month. In case you need more licenses at a later time you can always use our flex conditions. If you should exceed the maximum of your agreed licenses our “cost parachute” will apply and prevent from further costs.

FAIR USE POLICY

Developed with concrete feedback from you, our customers, it is our commitment to you to maintain maximum cost transparency for our UC-Interop service. We understand that your business needs may vary each month, and for this reason, we offer our Flex Licenses to help you meet your current conferencing needs. Keeping your budgets in mind, we apply a “cost-parachute” to prevent unforeseen and uncomfortable expenditures as part of our UC-Interop service.

If we recognize that your consumption of Flex Licenses is noticeably higher or in breach of our Fair Use Policy, then UC Point reserves the right to ask you to alter your usage to come within our Fair Use Policy or otherwise move to a more suitable plan. If excessive usage continues after receipt of a request to stop or alter the nature of your usage, we may without further notice, apply changes to your account and modify or restrict your use of UC-Interop Flex Licenses, or otherwise withdraw from the contract. Above all, transparency is one of our key values and we strive to sustain and strengthen the level of trust we have established with you...

PRIVACY POLICY

Your privacy is important to us. We recognize that when you choose our UC-Interop service you trust us to act in a responsible manner. As part of your subscription to our UC-Interop service, we may collect data to operate effectively and provide you with the best experience possible. This statement describes (1) the type of data we collect, (2) how we use and protect this information, and (3) who we disclose it to. In general, data collected may include personal and non-personal information about the meeting organizer, the conference room devices attending a UC-Interop enabled meeting, the duration, start and end times of a meeting, as well as the conference ID of a meeting.

The data collected may be used for billing purposes and to inform you about your account and usage of our UC-Interop service. The data collected as part of the UC-Interop service is only visible to authorized administrators. **WE WILL NOT TRADE, SELL, OR RENT YOUR PERSONAL AND NON-PERSONAL INFORMATION TO OTHER PARTIES OR THIRD PARTY VENDORS.** We take steps in accordance with good industry practice to protect the data that is collected as part of the UC-Interop service and only retain this information for a short period necessary. By subscribing to our UC-Interop service and/or by disclosing information to us in furtherance of our business relationships with you, you are accepting and agreeing to the practices described in this Privacy Policy.
