Travelling with the Vlow

Information
A hobby where the greatest fun is to be had in adventure and spontaneity.

Today: nature. Tomorrow: the city. The day after tomorrow: a different country. Take your family on an adventure or simply stay overnight at friends. If you have the Vlow, be ready to experience more.
Your key to the city break.

The compact and agile Camper Van nimbly manoeuvres through the narrowest of streets and lanes. If you have the Vlow, take your foot off the pedal and cruise through the city.
Decelerate to accelerate.

Move your body and free your mind. Feel the adventure. Nature, cold water, the sun. Instant goosebumps. If you have the Vlow, you’re free.
Carado sets the highest safety and quality standards and is constantly developing new benchmarks for the industry. The engine, bodywork and interior designs are continually tested and developed further.

Having the Vlow lets you relax. Designing the Vlow makes you think.
A powerful unit:

The vehicle is a Fiat Ducato Multijet fitted with up to 177 hp and four intelligent layouts behind the doors. Besides extremely high-quality, built-in interior designs, the four walls meet the highest standards in bodywork.
