LOG INTO YOUR WALLET

Creating an Account

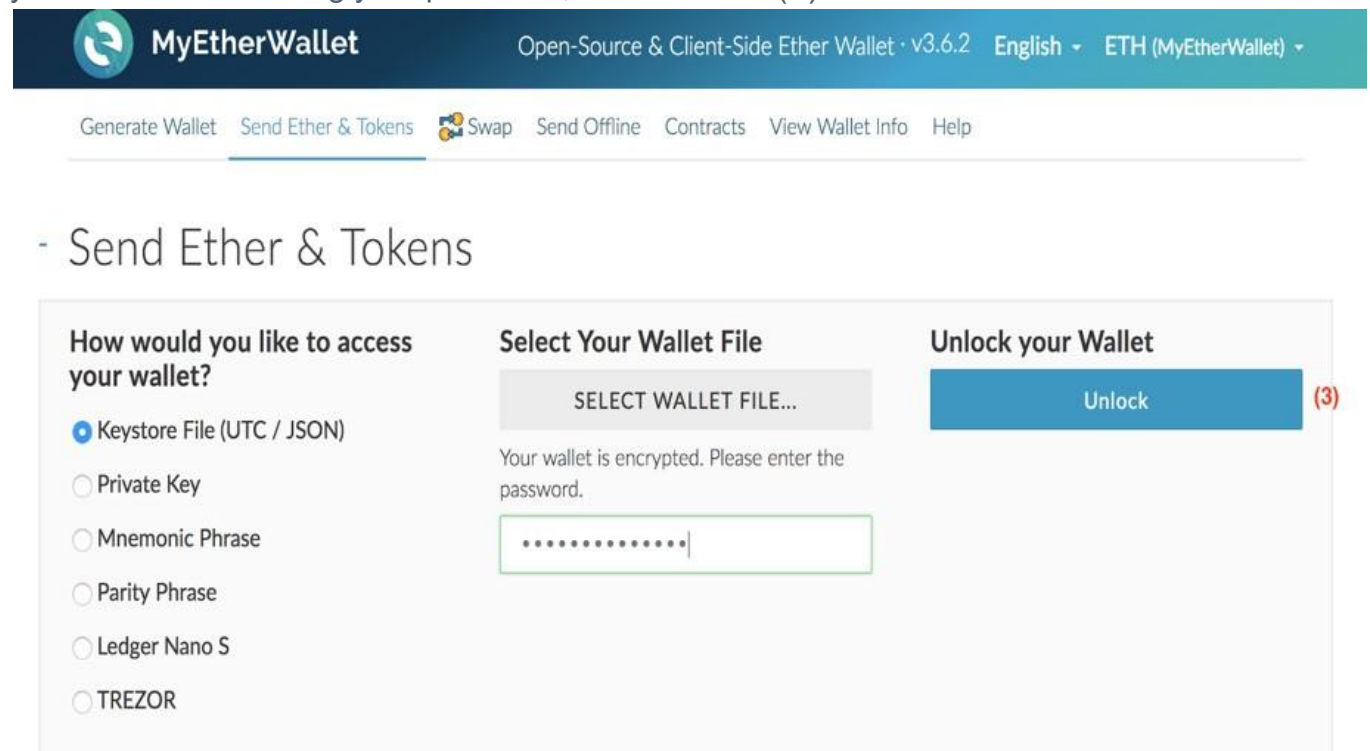

Step 1. Go to the MyEtherWallet (MEW) site: <https://www.myetherwallet.com>

Unlock your wallet to view the public address: MEW will prompt you to 'Select Wallet File...' (2). Please select the file that was generated when you created your address.

The screenshot shows the MyEtherWallet interface. The top navigation bar includes the MyEtherWallet logo, the text 'Open-Source & Client-Side Ether Wallet · v3.6.2', and language/currency dropdowns for 'English' and 'ETH (MyEtherWallet)'. Below the navigation bar, the 'Send Ether & Tokens' page is active. The main content area is titled 'Send Ether & Tokens' and contains two sections: 'How would you like to access your wallet?' and 'Select Your Wallet File'. The 'How would you like to access your wallet?' section has radio buttons for 'Keystore File (UTC / JSON)', 'Private Key', 'Mnemonic Phrase', 'Parity Phrase', 'Ledger Nano S', and 'TREZOR'. The 'Select Your Wallet File' section has a button labeled 'SELECT WALLET FILE...' with a red '(2)' next to it.

Since the file is encrypted, you will need to enter the password to unlock the private keys. Once you've finished entering your password, click 'Unlock' (3).

The screenshot shows the MyEtherWallet interface at the 'Unlock your Wallet' step. The top navigation bar is identical to the previous screenshot. The 'Send Ether & Tokens' page is active. The main content area is titled 'Send Ether & Tokens' and contains three sections: 'How would you like to access your wallet?', 'Select Your Wallet File', and 'Unlock your Wallet'. The 'How would you like to access your wallet?' section has radio buttons for 'Keystore File (UTC / JSON)', 'Private Key', 'Mnemonic Phrase', 'Parity Phrase', 'Ledger Nano S', and 'TREZOR'. The 'Select Your Wallet File' section has a button labeled 'SELECT WALLET FILE...' and a text input field with a green border and a password mask (dots). Below the input field, the text reads 'Your wallet is encrypted. Please enter the password.' The 'Unlock your Wallet' section has a blue button labeled 'Unlock' with a red '(3)' next to it.

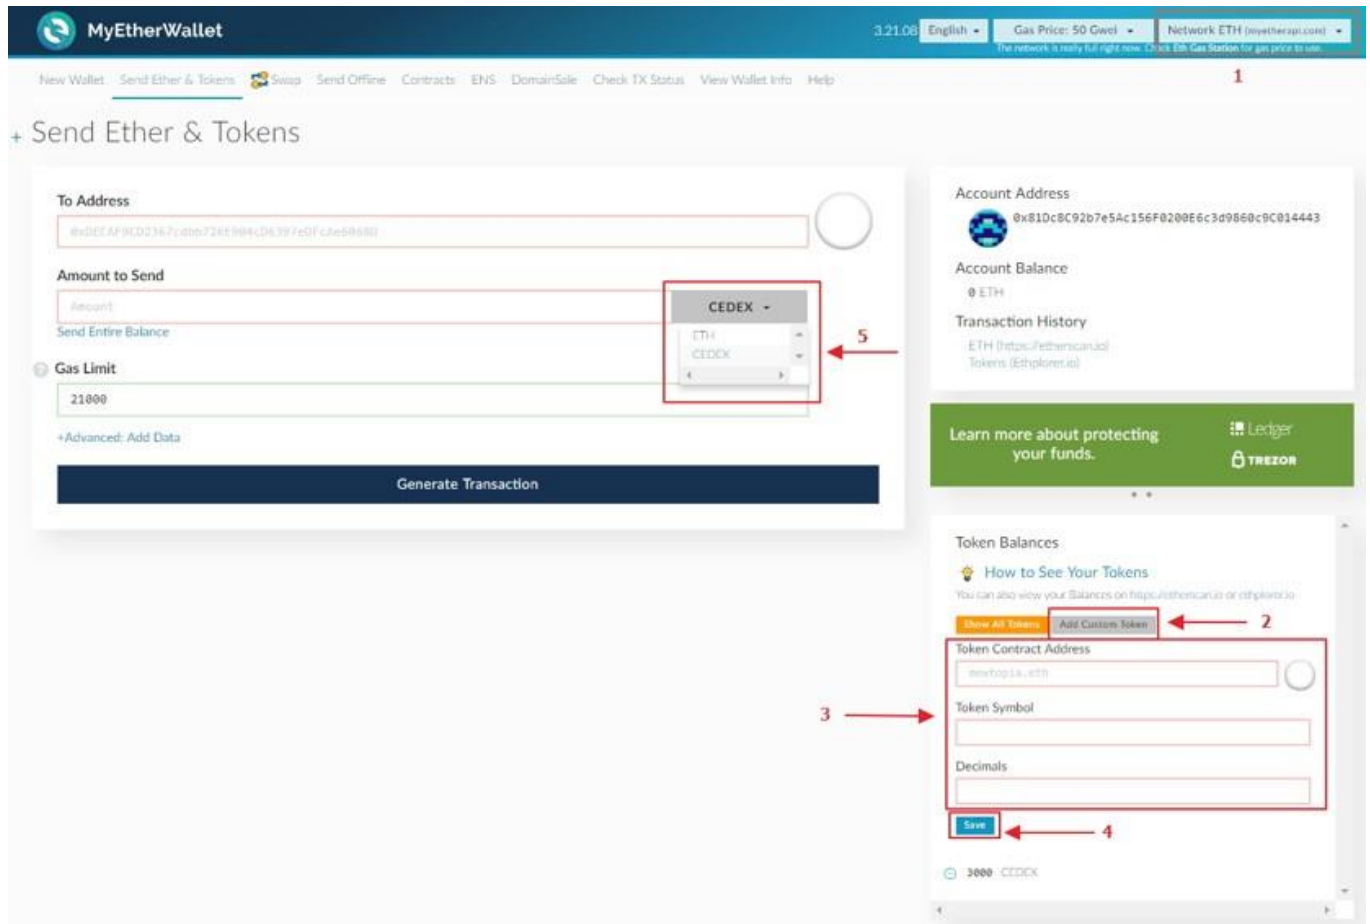

ADDING CEDEX COIN TO YOUR MYETHERWALLET

Step 1: Validate that you are using “Network ETH (myetherAPI.com)”

Step 2: On the Send Ether & Tokens page on MEW, click on the “Add Custom Token” button on the right sidebar.

Step 3: Fill in the required details

In the “Address” field enter the smart contract address, which is published at <https://cedex.com/announcements> In the “Token Symbol” field type "CEDEX" In the “Decimals” field type "18" Step 4: Click "Save".

Now you will see the amount of tokens you have in the Token Balance section

Step 5: If you want to send CEDEX tokens from your wallet, select CEDEX from the dropdown menu

Step 6: Click "Add".
