LOG INTO YOUR WALLET **Creating** **an Account**

Step 1. Go to the MyEtherWallet (MEW) site: <https://www.myetherwallet.com>

Unlock your wallet to view the public address: MEW will prompt you to 'Select Wallet File...' (2). Please select the file that was generated when you created your address.

The screenshot shows the MyEtherWallet interface. The header includes the logo, version (v3.6.2), language (English), and network (ETH). The main navigation bar has links for 'Generate Wallet', 'Send Ether & Tokens', 'Swap', 'Send Offline', 'Contracts', 'View Wallet Info', and 'Help'. The 'Send Ether & Tokens' section is active. It features two columns: 'How would you like to access your wallet?' with radio button options for Keystore File (UTC / JSON), Private Key, Mnemonic Phrase, Parity Phrase, Ledger Nano S, and TREZOR; and 'Select Your Wallet File' with a 'SELECT WALLET FILE...' button and a red '(2)' indicator.

Since the file is encrypted, you will need to enter the password to unlock the private keys. Once you've finished entering your password, click 'Unlock' (3).

This screenshot shows the next step in the MyEtherWallet interface. The 'Unlock your Wallet' section is now active, featuring a blue 'Unlock' button with a red '(3)' indicator. The 'Select Your Wallet File' section now includes a text input field for a password, with the text 'Your wallet is encrypted. Please enter the password.' above it. The 'How would you like to access your wallet?' section remains the same as in the previous screenshot.

ADDING CEDEX COIN TO YOUR MYETHERWALLET

Step 1: Validate that you are using “Network ETH (myetherAPI.com)”

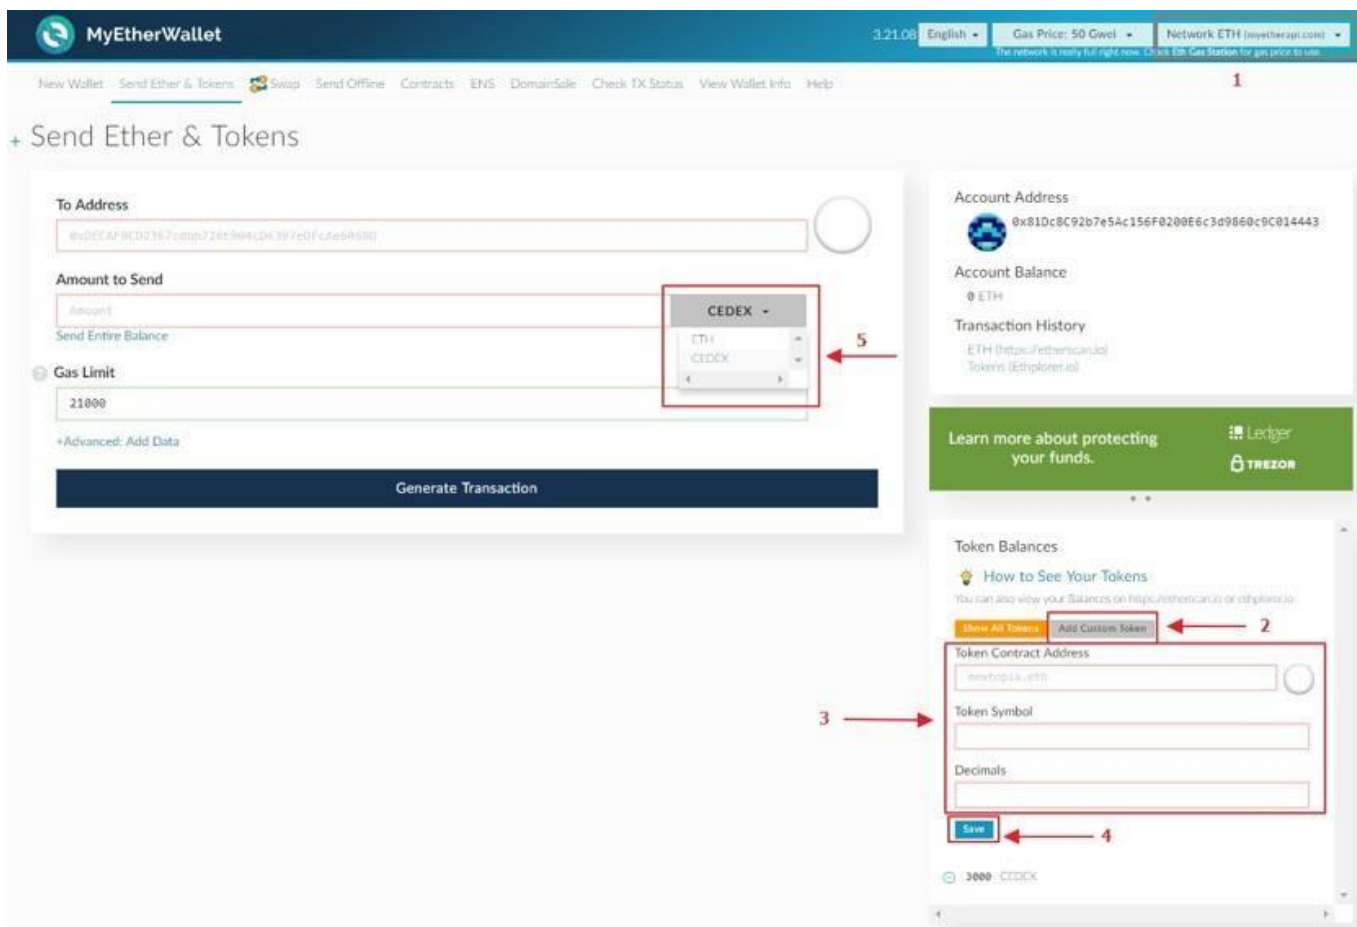

Step 2: On the Send Ether & Tokens page on MEW, click on the “Add Custom Token” button on the right sidebar.

Step 3: Fill in the required details

In the “Address” field enter the smart contract address, which is published at CEDEX Media Kit: <https://cedex.com/media-kit/#smart-contract>

In the “Token Symbol” field type "CEDEX" In the “Decimals” field type "18"

Step 4: Click "Save".

Now you will see the amount of tokens you have in the Token Balance section

Step 5: If you want to send CEDEX tokens from your wallet, select CEDEX from the dropdown menu

Step 6: Click "Add".
