4. A station/network may not broadcast live reports and/or live programming from inside the arena bowl (or in voms) on game days without permission from the Mountain West Media Coordinator Stuart Buchanan (970-988-6304 or sbuchanan@themw.com). ENG/MINI-CAMERA POLICIES

1. CBS, CBS Sports Network and the Mountain West Network are the only television entities that may transmit live from inside the arena bowl or courtside during live game action, with the following exception:
 - a. A station/network may broadcast live reports and/or live programming from designated spots inside the arena, provided it has obtained permission from the MW Media Coordinator Stuart Buchanan (sbuchanan@themw.com / 970-988-6304) in advance of the live shot.
 - b. Photographers wishing to shoot video must abide by the same policies used for mini-cams.
2. Only CBS, CBS Sports Network, MWN and team videographers are authorized to use ENG/mini-cam equipment in the arena during tournament competition (see exception to No. 1). CBS, CBS Sports Network and MWN have no time restrictions except when the arena is closed for team practice or other activities approved by the Conference. Team videographers must comply with MW policies or forfeit credential.
3. If a non-originating television station, network or local cable origination channel desires to receive video and audio of tournament games, international sound, crowd/team "color" activities and all formal news conferences, it must take a feed from the video and audio distribution facilities provided by the Mountain West at the arena. Any video or audio highlight excerpts received from the distribution facilities that are aired by a telecaster shall include an on-air "Courtesy CBS, CBS Sports Network or Mountain West Network."
4. Camerapersons representing these non-originating agencies **are not** permitted to film game action and **will not** have courtside access except as noted below:
 - a. Non-originating telecasters have access to the arena floor until 30 minutes before the **first game of each session (not in-between games of a session)**. During this time, mini-cam operators may record "stand-ups" (live and/or taped) or other material from the end zone aprons only.
 - b. The playing floor opens to the media **one hour** before the first game of the day.
 - c. Access for the second session of each day begins when CBS, CBS Sports Network or MWN discontinues its first-session coverage from the site and continues until 30 minutes before tip-off of the first game of the next session. (**NOTE:** The floor may not be available, depending upon the time between sessions.)
 - d. From that point on, the floor (and all other areas from which the playing floor may be seen) shall remain off limits to all television stations until CBS, CBS Sports Network or MWN have discontinued its coverage of the session.
 - e. There will be no access for mini-cam operators to the arena playing floor (including seating area and suites) during games for any purpose or between games of the same session.
5. Mini-cam operators must be accompanied by a Mountain West official when conducting a live shot within the arena or concourse. If a television entity conducts a live shot in the arena/concourse during game action, or without permission from the media coordinator, the television entity's credentials may be revoked.
6. The MW Media Coordinator may set up one or two locations in the arena bowl where non-originating telecasters may do live shots during game action. The live shot cannot include any live game action or have lights directed toward the court. Live shots taking place outside of the designated areas provided by the media coordinator without prior approval could result in credential revocation.
7. No television crews will be allowed to use additional lighting setups unless approved by the media coordinator or representative. Lighting will be provided in the media interview room for postgame news conferences.
8. Camerapersons shall not return to the arena floor between games of a session.
9. No news outlets (print or Internet media or over-the-air television stations) can shoot their own low angle video footage for use on the Internet from a MW Basketball Championship game.
10. TV stations and institutional video crews are required to use a hard Ethernet line in the TV distribution Work Room and **ARE NOT** permitted on the wireless network. If a TV station or institution is found using the wireless system to transfer video files, credentials may be revoked.

POSTGAME INTERVIEWS

1. Locker rooms are open for 20 minutes each postgame following a 5-minute cooling-off period for the winning team and 15-minute cooling off period for the losing team. All players who participated in the game must remain in the locker room the entire 20 minutes. Due to the limited space, mini-cam/video operators **are not** permitted in the locker rooms, except as noted below. Requested student-athletes will be brought out to a designated area in the Thomas & Mack tunnel. If the requested student-athletes participated in the postgame news conference, they are not required to participate in one-on-one interviews after leaving the dais and will not be available in the tunnel upon return. **NOTE: In the event a student-athlete refuses to come out of the locker room to fulfill any mini-cam/video interview requests, the mini-cam/video operators will be permitted to enter the locker room.**
