

## 2010 SUN DEVIL FOOTBALL PARKING REQUEST PROCEDURE

To request and purchase Football parking an individual must pay \$105 for each pass and submit their request for their preferred lot.

Minimum contribution levels have changed for 2010 as well as the number of passes an individual is able to purchase. An account holder may purchase 1 parking pass for each 2 season tickets that they own. This is a change from the 1 pass for every 4 tickets it has been in the past.

Specific lots have different minimum contribution levels to be able to request parking in those lots. Below are the minimum contribution levels associated with the specific lots:

Parking is not guaranteed by achieving one of the minimum required contribution levels. The minimum required contribution level does entitle a Sun Devil Club member to request parking in a specific lot. Parking is then assigned on a priority point basis securing parking based on lifetime giving to Sun Devil Athletics. If you request a parking lot that requires a higher minimum donation than you currently have, you will be assigned the next closest lot that meets with your contribution level.

*One priority point is earned for every \$100 contributed. If you would like to know your current priority point total, please contact a Development Officer. Contact information is listed at the bottom of the page for your convenience.*

Those who are assigned parking are permitted 1 parking pass for every 2 Football season tickets that are purchased.
