Write the scales

The first note is given. Write the rest of the scale going up in **whole notes**, one note per line or space, up to the tonic an octave higher. There is **no key signature**: put every sharp or flat in front of its note. Then join each **half step** with a slur ⁀.

Major	Natural minor	Harmonic minor	Melodic minor (up)
W W H W W W H	W H W W H W W	natural minor, raise 7	natural minor, raise 6 and 7

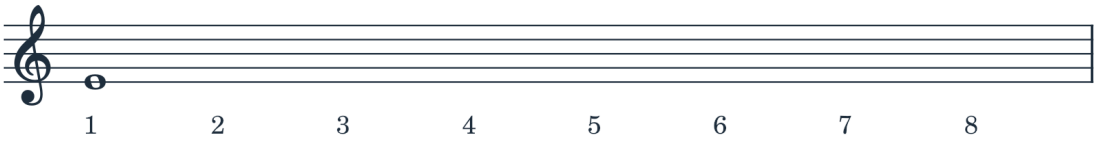

1 **D major**

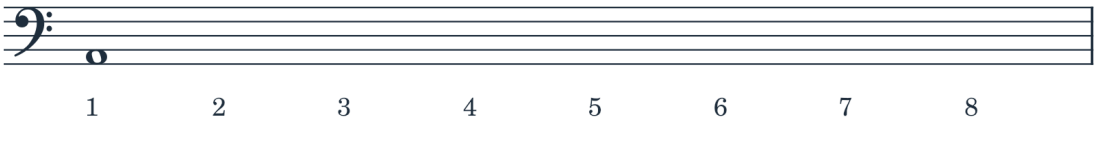

2 **B♭ major**

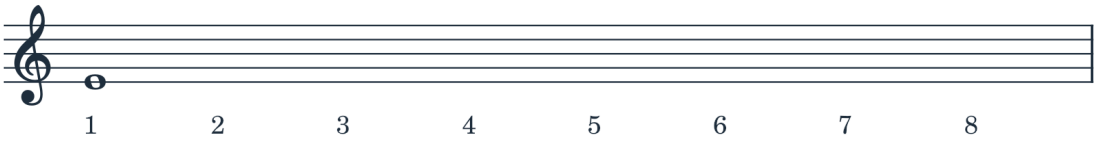

3 **E major**

4 **A natural minor**

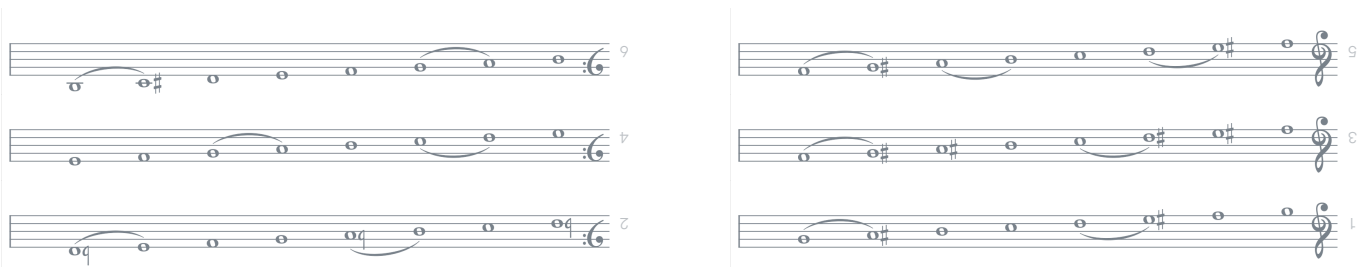

5 **E harmonic minor**

6 **D melodic minor, ascending**

Hint Write the **letters** first — every letter once, in order (D E F G A B C D) — then fix each step with a sharp or flat until it matches the recipe (W = whole step, two keys; H = half step, neighbor keys). Harmonic minor has one extra-wide step of three half steps, from 6 up to 7. Check with Handouts 09, 25 and 68. More scales: Exercise 81.
