# EduAI

# A device like no other. A teaching superpower.

Intelligent and safe teaching assistant that plans lessons, bring concepts to life and create quizzes in seconds, with safe, age-appropriate AI.

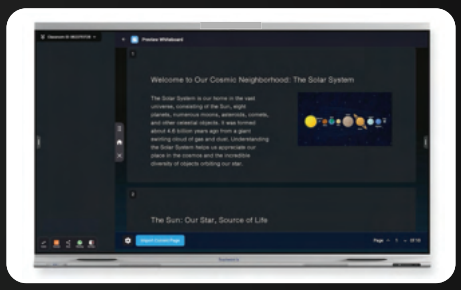

## Ask Anything

Bring any concept or student question to life instantly without breaking class flow.

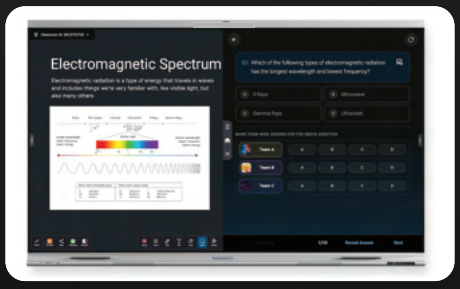

## AI Whiteboards

Deliver lessons tailored to your class, with no planning required.

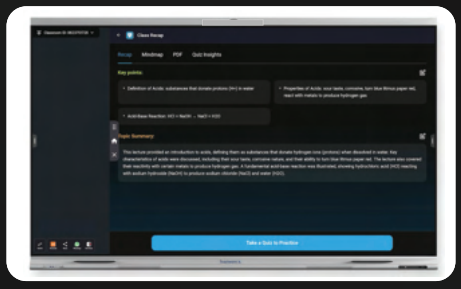

## Homework Generator

Create homework with zero effort, tailored to what you just taught.

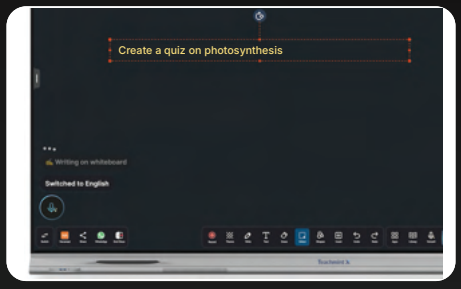

## Quiz Generator

Launch solo or team quizzes straight from your lesson to catch learning gaps instantly.

## AI Summarizer & Class Recap

Auto-generate summaries and class recaps from any lesson to lock in retention, with zero manual notes.

## Voice Assistant

Control your whiteboard hands-free without turning away from students.

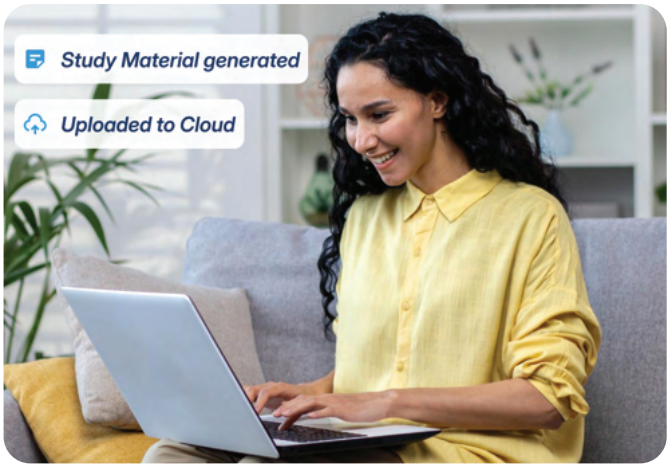

# Give teachers their time back

Prep in minutes, teach without interruptions and wrap up on time. EduAI and the Teachmint Connected Classroom App are easy from day one and work seamlessly with Google Workspace.

01

## Pre-Class Preparation

Let AI handle your lesson prep in minutes, so you can walk in textbook-free with everything cloud-synced to your device.

02

## In-Class Engagement

Teach with live AI assistance, bring lessons to life with simulations and learning games, wrap up every class with a holistic summary, and kick off the next one with an instant recap.

03

## Post-Class Follow-Up

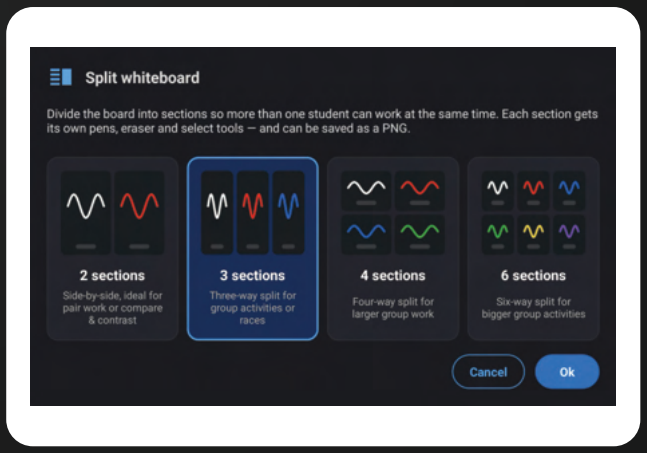

Send homework and quizzes, and share the full lesson with students before the bell, so you leave with nothing to take home.

# Collaborative learning, in class and beyond.

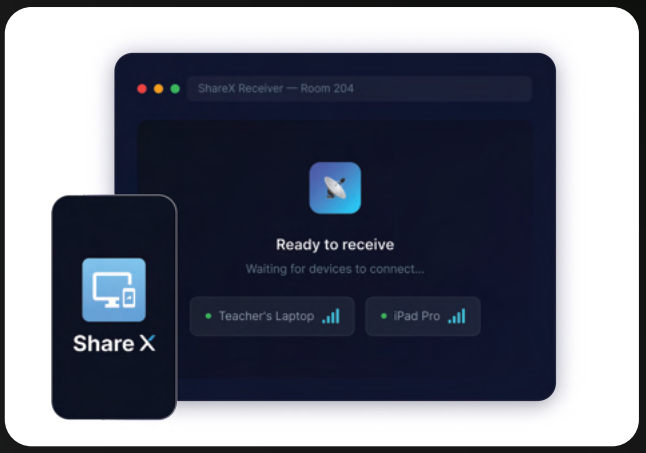

## Learning Together in Class

Get every student involved. Solve problems side by side and share work to the device with a single tap.

### Split View

Multiple students, multiple apps, one screen. Students solve problems side by side at the front of the room.

### Two-Way Casting with Share X

Students cast their work to Teachmint X, and teachers share the screen back to every student device.

---

## Learning Beyond the Bell

Extend learning beyond school hours with automated grading, progress reports and shared class recordings.

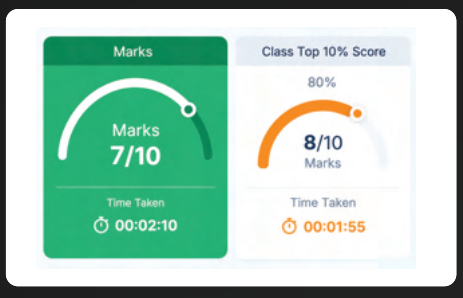

### Student App

Homework, assignments and tests, all in one place, on any device.

### Class Goes Home

Lesson recaps, notes and recordings, ready whenever students want to revise.

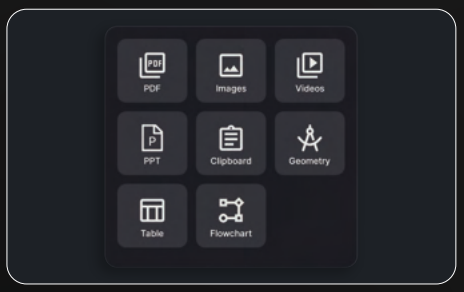

### Progress You Can See

Auto-graded work and progress reports highlight learning gaps early, so no student falls behind.

# All-in-One Teaching Whiteboard

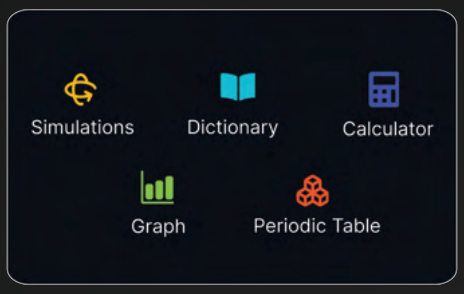

## Import & Easy Sharing

Import videos, images, PPTs, PDFs and books from your drive and share lessons in one tap.

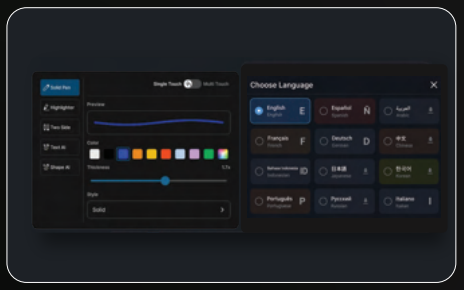

## STEM Suite & Educational Games

Visualize graphs and interact with 3D models, circuits and educational games.

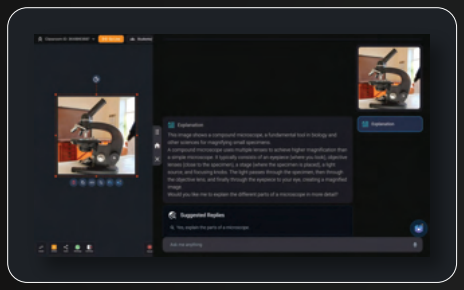

## Smart Tools

Simulations, graphs, calculator, dictionary and the periodic table, all in one.

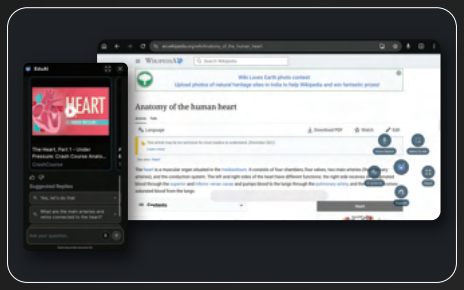

## AI Pen (Multilingual)

Write in any of 90+ languages and convert to your choice of supported digital text.

## AI Search on Images

Select any image on the whiteboard and run Edu Search on it to instantly pull up relevant information.

## Global EduAI

An AI assistant for every app: explain, annotate and search across any app beyond the whiteboard.

# Your network. Your data. Your control.

## Vision X

### Manage every device. Keep data where it belongs.

One dashboard for every device, running on your own network, with Google Play Protect and Safe Search built in.

### Central dashboard
Group devices by room, and see the status of every device at a glance.

### Remote device control
Turn devices on or off, lock them remotely, and set automatic schedules.

### Updates and app control
Push firmware and apps over the air, and allow only approved apps.

### Broadcasts and alerts
Broadcast urgent alerts or routine updates instantly to any or all classroom screens.

### Usage analytics
See how and when every device is used, so you can track adoption.

### Remote troubleshooting
Diagnose and fix issues without sending anyone to the classroom.

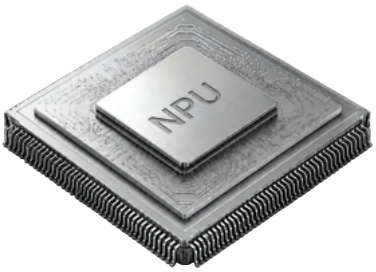

## AI-Ready Hardware

### Android 16
Google EDLA certified, with the Play Store and Google apps built in.

### Octa-Core & 16 GB RAM
An octa-core processor with 16 GB RAM for smooth multitasking across apps and AI tools.

### 6 TOPS NPU
A dedicated processor for AI tasks, so overall processing speed never slows down.

# Specifications

## Teachmint X 75″ Prime / 86″ Prime

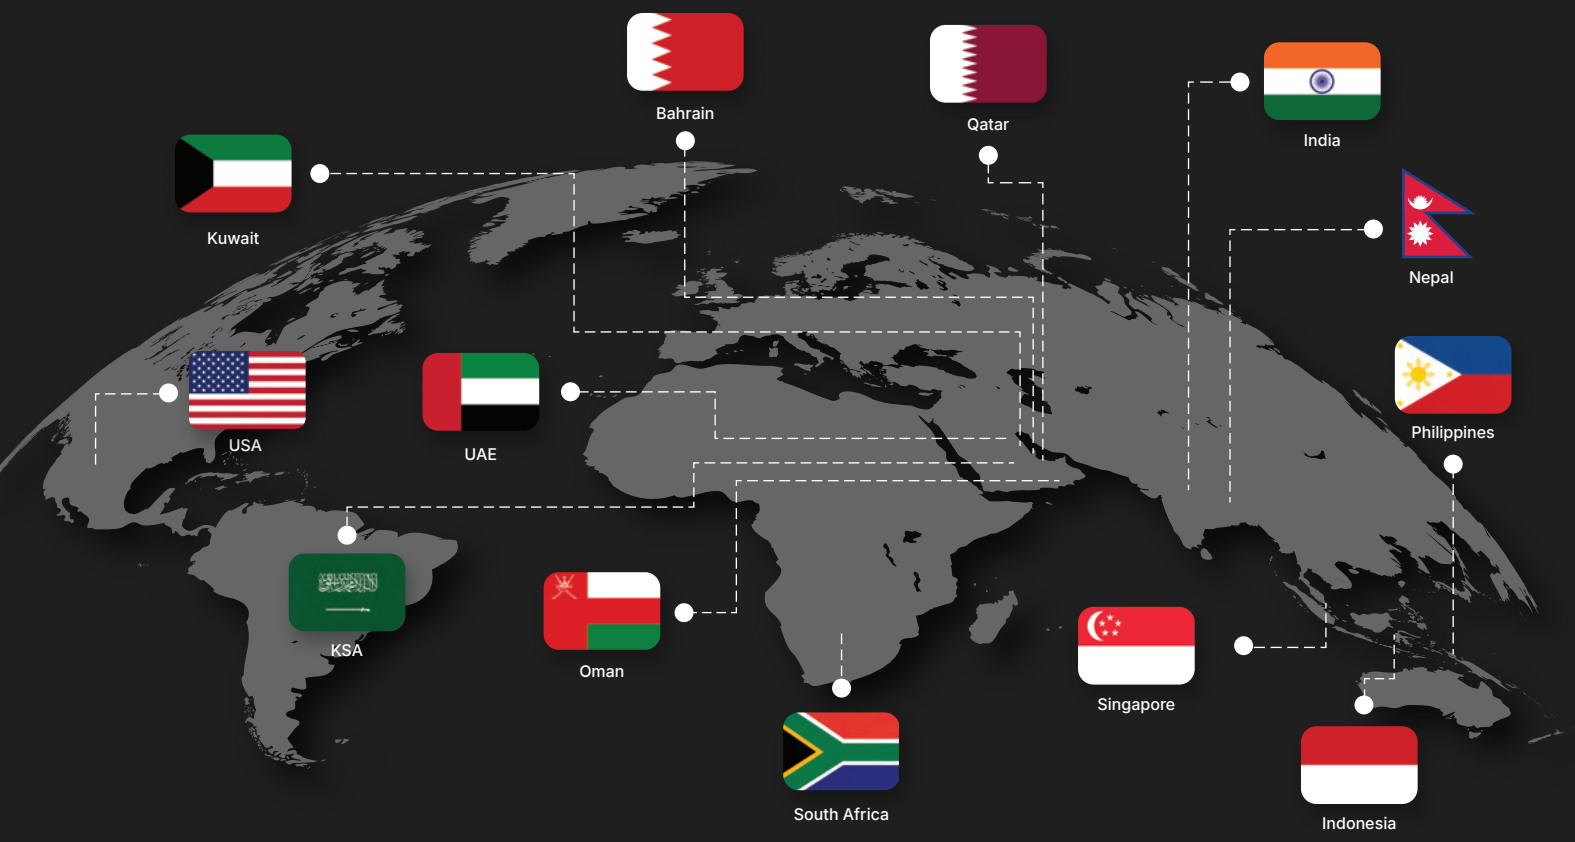

| Hardware | |
|---|---|
| Screen Size | 75" Prime / 86" Prime |
| RAM/ROM | 16 GB RAM / 128 GB ROM |
| CPU | Octa Core \| RK3576 (4* ARM Cortex A72 @ 2.2 GHz + 4* ARM Cortex A53 @ 2.0 GHz) |
| GPU | Mali-G52 MC3 |
| NPU | 6.0 TOPS |
| Mic | 8-Array Mic |
| Brightness | 450 nits |
| Typical Backlight Lifetime | 60,000 Hours |
| Wi-Fi Standard | Wi-Fi 6 |
| Bluetooth | Bluetooth 5.3 |
| Sensors | NFC Card Reader, Light Sensor, IR receiver |
