Assembly Instructions for the Water fountain w/ LED Light

Item: SS3170020

- Take the fountain out of the box.
- Plug the LED light into the adapter that is connected to the pump (Step 1)
- Connect the pump to the tubing inside the fountain (Step 2)
- Insert the acryl tube in the middle of the LED light. (Step 3)
- Connect the faucet to the acryl tube,make sure the the acryl tube is tightly inserted into the faucet. (Step 4)
- Put water (1300 ml approx.) in the fountain (about ½ way full) take all cords and pump and place it in the water, be sure to make sure there is enough water in the bottom of the fountain so that the pump will be completely submersed. (Step 5)
- Connect the adaptor to the pump cable. (Step 6)
- Plug the pump in and enjoy. (Step 7)

Part	Description	Quantity	Part	Description	Quantity
A	Faucet	1 pc	D	Water pump	1 pc
B	Acryl tube	1 pc	E	Adaptor	1 pc
C	Fountain	1 pc			

NOTE: Allow the pump power cord to hang at a lower level than the wall outlet to form a “drip loop”. This will help prevent water from dripping down the power cord and getting into the wall outlet. Be careful not to spill water onto the plug of the pump. DO NOT allow the pump to run dry!
