Assembly Instructions for the Solar powered water fountain w/ LED Light Item: SS7192027

- Take the fountain out of the box.
- Plug the LED light into the adapter that is connected to the pump (Step 1)
- Connect the pump to the tubing in the fountain (Step 2)
- Put water (5000 ML approx.) in the basin of the fountain (about ½ way full) take all cords and pump and place them in the water, ensure that there is enough water in the bottom of the fountain so that the pump is completely submersed. (Step 3)
- Assemble the solar panel as shown, push the switch to “ON” position to turn on the solar pump. Insert the solar panel in the ground and adjust the angle of the solar panel to make sure it can receive maximum direct sunlight. (Step 4)
- Connect the pump to the solar panel and enjoy this solar fountain. (Step 5)
