**TOOLS/ADDITIVES**

**Clear**

Can be used to manipulate the tone intensity of any Rhol shade or simply used as a shine enhancing service, when using as a diluter to soften your desired tonality it is creatively mixed in any proportion depending on the desired outcome. When adding it to a formula you do not need to compensate for developer. Ex. 30ml 9MR + 15ml Clear + 60ml Active Emulsion.

When being used as a shine-enhancing service, mix with distilled water until desired consistency is reached. No active emulsion is necessary. Timing: 25 minutes.

**How to Use**

Rhol should be applied to dry hair for maximum results, it can be applied to towel-dried hair for a softer outcome. The use of heat is not required, but a processing cap can be used if needed. With Rhol's unique self-cleansing properties, add a small amount of warm water and emulsify into a rich lather and rinse. If necessary, follow with shampoo and conditioner of choice.

**Classification System**

Rhol is composed of an alpha numeric shade system the tone families are:

Natural Magic	N= .0
Elegant Brown	MM= .04/06
Golden Harmony	D= .3
Sand Fantasy	MS= .32/31
Copper Symphony	R/DR= .4/34
Red Symphony	SR= .76/5
Red Fantasy	MR= .56/65/66/64
