# JOIN US FOR A SYMPOSIUM & WORKSHOP TELECONSULTATION IN CLINICAL TOXINOLOGY

## INTRODUCTION

“Expertise Without Borders: Advancing Clinical Toxinology Through Teleconsultations.”

This is an essential program for healthcare professionals. Join global experts and regional leaders from across ASEAN and beyond to advance the management of toxin related emergencies (envenomation and poisoning).

- This symposium & workshop focuses on enhancing clinical skills and interdisciplinary collaboration through innovative teleconsultation frameworks. A key highlight is the introduction of the Remote Envenomation Consultancy Services (RECS) ASEAN network, a risk management system that provides 24-hour voluntary clinical support service.

Featuring an outstanding lineup of international speakers, this event is a unique opportunity to exchange knowledge and gain practical experience in delivering timely, evidence-based care in clinical toxinology.
