

BOOST YOUR BUSINESS GROWTH BY TECHNOLOGY

accounting ecosystem section

1 CLOUD ACCOUNTING

Cloud accounting apps that lets you do accounting and tax compliance work hassle free. It also has intuitive mobile apps and web interfaces for CRM, point-of-sale, ecommerce, time-tracking, inventory managements and more.

2 DATA COLLECTION

with ever increasing tax and financial compliance requirements, even in the age of information technology, Accountants often spend over 50% of their work day on data collection and integration. The apps can help reduce the time dramatically

3 DATA DIGITIZATION

With the technology of world class data extraction, the receipt and invoice data can be extracted and integrated to the cloud accounting platform seamlessly. All you need to do is review and publish to your software.

4 DEBT CHASE

The apps provide the tools to effectively automate chasing customers to pay their invoices without losing the human touch. It gives you the insights to better decide which customers to grant credit to and how best to chase up your customers to pay their invoices.s.

5 INVENTORY MANAGERMENTS

With real-time inventory control and reporting, It is a powerful cloud inventory management solution for manufacturers, distributors, wholesalers and retailers. It makes inventory management easier and more efficient so you can take control of your inventory health and scale your business with confidence.

6 POINT OF SALE

The apps can provide various payments methods to customers and accept credit and debit cards from an iPhone, iPad or Android device. More importantly, It can connect to your cloud accounting platform to automatically sync your sales transactions and keep track of merchant fees, tips, refunds, and more.

BOOST YOUR BUSINESS GROWTH BY TECHNOLOGY

office productivity section

1

EMAIL MANAGEMENT

Email is connected to your customers and all the tasks should be generated and assigned from there. Comments, reminders, appointments and notes should be easily added from one place to make the context make sense for any team members.

2

SOCIAL MARKETING

Social media marketing can help with a number of goals, such as: Increasing website traffic, building conversions and raising brand awareness. The bigger and more engaged your audience is on social media networks, the easier it will be for you to achieve every other marketing goal on your list!

3

CLOUD STORAGE AND BACKUP

Store and access files from anywhere. Bring your work together in one safe place. Get to your files from a computer, phone, or tablet—changes you make from one device will automatically sync across all your devices.

4

AUTOMATION AND INTEGRATION

Automation and integration move info between your web apps automatically to reduce low value work, such as data entry, email and invoice preparation etc. So you can focus on your most important work.

5

TEAMS COLLABORATION

With the business growing, it has to revolutionize the way your team collaborates and unite them with a single place to communicate and work together. No more out-of-context FYIs or meaningless forwarded emails. Team communication happens in the same place as work, tasks and planning.
