

We Remain Open

We will continue to serve you through non-contact services: mailing supplies and phone consultations.

We will be limiting in person services to those patients who find their safety, or the safety of others, in jeopardy as a result of hearing impairment.

The inability to hear the following are examples of compromised safety:

- Conversation (Doctor, Hospital visits)
- Doorbell or knock at the door
- Telephone ring or communicate on the telephone
- Smoke detectors and alarms
- The needs of anyone under your care; (infants, children or other family members)

This list is not exhaustive. If you feel you have a hearing emergency, email us at faudio@francisaudiology.com or call us at 724-933-3440. Please leave a message if we do not immediately answer.
