

# Vax to School!

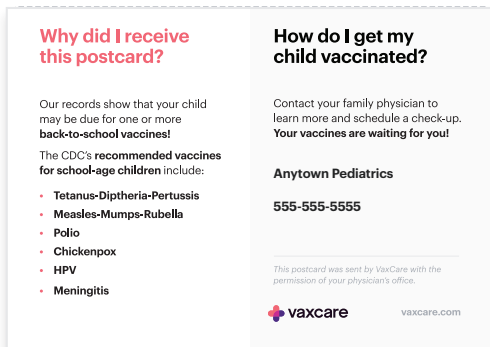

## Direct Patient Outreach Program 2021

Your practice is participating in VaxCare's 'Vax to School' outreach program.

### Here's what that means:

- Pediatric patients due or behind on recommended vaccines (not including COVID-19 vaccines) will soon receive a **reminder postcard** in the mail (left), sent from VaxCare on behalf of your practice.
- Cards will be mailed between **June 25 and July 16th**, staggered to help manage scheduling.
- The patient's exact recommended vaccines *will not be indicated*: You will need to consult the patient's record in your EHR to determine which vaccines they are due for.

### Other important scheduling information:

Thanks again for being a valued VaxCare partner,  
and for helping your community catch up on vaccines!
