March 12, 2020

To our valued patients:

During this time of increased awareness of communicable diseases, ESSMC wants to reassure you that we take your health and protection seriously. With our history as a medical facility, we are accustomed to following appropriate policies and procedures to prevent the spread of infectious disease. Our infection control policies are reviewed with staff regularly, our cleaning agents are up to standards to protect against current strains of viruses in the community and we are increasing our cleaning efforts. As this situation evolves we will continue to act in ways consistent with our mission to serve the community and deliver the highest quality physical therapy services available.

Sincerely,

John E. Bonaroti, PT, ATC
President

Feel Better • Play Better • Live Better
