NOW OFFERING TELEMEDICINE

APPOINTMENTS!

During the current health crisis, we understand that our patients continue to need safe and compassionate care. We are offering telemedicine appointments to address these concerns from the safety and comfort of your home or office. Many major health insurances are currently waiving co-pays for these visits. Whether you are a current patient or have never been treated by one of our dedicated providers, we are here for you.

If you are interested in scheduling a virtual consultation with one of our providers, please call 412-563-0217 or click on [SCHEDULE NOW](#) to request an appointment.

STAY SAFE AND HEALTHY!
