

Rhode Island Chapter

Do you have personal protective equipment (PPE) in your garage or basement from your last home improvement project?

Do you own a construction, painting, manufacturing or marine company?

Do you know someone who is hoarding this equipment?

Please consider making a donation of your personal protective equipment (PPE) to help Rhode Island's Emergency Medicine Doctors during COVID-19.

Rhode Island's Emergency Physicians are looking for unused PPE. We need:

1. N95 masks
2. Face Shields
3. Tyvek body suits

Donations can be made at the:

Rhode Island Blood Center
405 Promenade St
Providence, RI 02908
10 am to 5 pm, Monday to Friday

Pull into the garage and find the bins located to the right. Please consider making a blood donation as well!

On behalf of Rhode Island's Emergency Doctors, thank you.

*Otis Warren, MD, Rhode Island Hospital and Miriam Hospital;
President American College of Emergency Doctors, RI Chapter*
