

Turn Back the Hands of Time

Spring Specials & Skin Care News

Happy Spring!

This is my favorite time of year. In fact, Spring is the favorite time of year for most of us and throughout time, in poetry, books and movies, there's good reason for it.

Shakespeare exclaimed, "April hath put a spirit of youth in everything." The great author, Tolstoy, wrote, "Spring is the time of plans and projects."

This is, indeed, the season to refresh and start anew. How about you? What's your plan? All season long, we're offering special pricing on proven procedures to help you **"Turn back the hands of time"** - easy, affordable treatments to recapture the youthful appearance and glowing complexion nature intended for you.

Please take a moment to look at all we have available this Spring to resolve those nagging and, sometimes puzzling, appearance issues. Make an appointment today for a free skin analysis. We have solutions and we'll get you feeling and looking the best you have in years.

Dr. Frankel

"Protect your birthday suit...wear your sunscreen daily!"

Spring Cleaning For Your Pores!

With Winter's brittle, persistent chill behind us, now is the perfect time to deal with the toll the season has surely taken on your complexion. The best way to start is with a clean base.

Without a doubt, a "spring cleaning" of clogged pores with a professional facial will have you well on your way. The deep cleaning and skin-nourishing aspects of our revolutionary **HydraFacials** make them among our most popular procedures. Plus, with the change of seasons, a time when skin is prone to reacting badly to environmental stresses, it's an opportunity to personally consult with your Rejuvaderm aesthetician on how to maintain the radiant glow it will provide throughout the year.

Ask about savings on our medical-grade line of skin lotions & creams while you're here. **Save 10%** if purchased same day of a service or **Save 20%** if it's your birthday.

Spectacular Spring Specials

This unique treatment helps stimulate your skin's own natural collagen production to help restore its inner structure and increase the facial volume lost to aging.
