How to Prepare For Your Next Appointment

Top Questions to Ask Your Doctor

Many people forget to ask important questions at their doctor's appointments. You may want to print or write these questions down before your appointment, so you remember to get the answers you need.

1. How advanced is my case of “diagnosis”?
2. How does it typically progress? Am I at risk of going blind?
3. Will controlling my blood sugar levels slow the progression?
4. Would it be helpful to see a specialist?
5. How will you monitor my diagnosis to protect my eyesight?
6. What is the best treatment for my case?

Additional Things to Discuss

Medications:

Your doctor may ask how well the medications are working and if you're experiencing any side effects.

If you need a prescription refill, be sure to ask for it.

Symptoms:

Your doctor may ask any symptoms you may be experiencing or have experienced since your last visit.

Concerns:

Share your thoughts, feelings, and concerns with your doctor. Our primary focus is providing you quality care.

INFINITY · RETINA

Dr. Britt J. Parvus is a board-certified ophthalmologist, trained as an ocular oncologist and retina specialist, managing a large variety of eye conditions.
