Uploader Button or Request for Images

If you are directed to an Uploader Button on a clinic's website, click the mymedicalimages button, and you will be directed to their Uploader Page. You can now choose between the two upload options below.

If you are sent a Request for Medical Images, check your email inbox for an "Important: Request for Medical Images" email and click the link to go to the clinic's Uploader Page. You can now choose between the two upload options below.

Don't have a CD drive? Upload at CVS Pharmacy®

Once you've clicked the Uploader Button, you will be presented with three options: Create an Account, Sign into an Existing Account, and Upload at CVS.

Click on the Upload at CVS tab and write down the unique **Physician Account Code: OAAortho**. This will be used at the Kiosk to locate your physician.

To find a photo kiosk near you visit: app.mymedicalimages.com/storelocator/nearme

Bring the Physician Account Code **OAAortho** and the original CD of your images with you to CVS Pharmacy®.

On the photo kiosk, select the mymedicalimages button and follow the step-by-step instructions to share images with your physician.

When the upload is complete, the images will be uploaded to your account and shared with OAA Orthopaedic Specialists automatically.

Upload From Home with a CD drive

Once you've clicked the Uploader Button, you will be presented with three options: Create a free basic account, Sign into an existing account, or Upload at CVS.

After signing in or creating a new account, you will be prompted to "Choose a Source" for your medical images. Most likely, your images will be on a CD.

When selecting images on a CD or in a folder, the entire CD or folder can be selected.

When the upload is complete, the images will be uploaded to your account and shared with OAA Orthopaedic Specialists automatically.
