

## **Peak Vista Appoints Director of its Family Medicine Residency Program**

**COLORADO SPRINGS, Colo.** – Peak Vista Community Health Centers (Peak Vista) appoints Scott Robinson, D.O. to lead the charge of developing Peak Vista’s Family Medicine Residency Program, which will begin post-graduate training of residents, qualified medical school graduates, in July of 2016.

“This marks a significant step toward advancing Peak Vista’s Family Medicine Residency Program,” shared Peak Vista chief medical and dental officer Michael Welch, D.O. “Dr. Robinson’s expertise will help us continue our mission of providing access to exceptional healthcare for the Pikes Peak and East Central regions of Colorado.”

The three-year Family Medicine Residency Program will emphasize several primary care clinical training areas—from outpatient pediatrics and family medicine to gynecology and geriatric care. At full capacity in 2019, we expect a total of 24 residents.

“The residency program is a result of community collaboration and Peak Vista’s dedication to enhancing our local pool of family medicine providers,” Robinson said. “I am grateful for the opportunity to lead this program for Peak Vista and for the patients and communities we serve.”

Robinson served as the program director of the Bay Area Family Medicine Residency in Corpus Christi, Texas from 1999 to 2005. Afterwards, he continued working as a family physician in Texas for a number of years and then joined Peak Vista in 2010. Most recently, he served as vice president of medical services, overseeing six of Peak Vista’s 25 locations.
