

Peak Vista Women's Health Center & UHealth Memorial Hospital North

UHealth Memorial Hospital North has expanded its labor and delivery department and the Children's Hospital Colorado (CHCO) will be opening a new facility adjacent to the new department – effectively creating a women's and children's inpatient complex where women will be able to deliver knowing that, if needed, their families will have emergency access to not only neonatologists, but also to other pediatric specialists.

No other facility in Southern Colorado can offer this level of pediatric care to expecting mothers. The Peak Vista Women's Health Center is proud to announce we will begin delivering all patients at UHealth Memorial Hospital North in the Spring of 2019. We are excited to be a part of this initiative!
