SPORTS PHYSICALS

at Connected Health

This Comprehensive Physical Exam Includes:

Sports Health Risk Assessment

Screening tool used to collect health information. This assessment is used to predict and target potential health risks before they become a problem.

EKG & Sport Specific Recommendations

An electrocardiogram monitors the heart's electrical activity to help determine if a person has undiagnosed cardiac abnormalities.

Virtual Access to our Dedicated Physician

Virtual access (phone, text, video) to sports health & wellness physician during your sports season.

\$50

Call 724-933-4305 to schedule!
