KIDS EYES ERIE

LEA Instruction Sheet

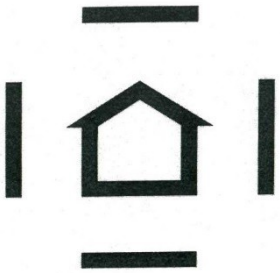

LEA Matching is another test used to evaluate your child's visual acuity. Because it is based on matching symbols, young children quickly learned. Before your next visit work with your child on recognition of these symbols. Your cooperation will help immensely in determining the vision of your child. Cut out the bottom symbols along the lines and use these as flash cards. Your child should be able to recognize and point to the matching symbols below, when proficient with matching practice matching with either covered or occluded. alternate covering one eye at a time to have him get used to occlusion for standard testing.

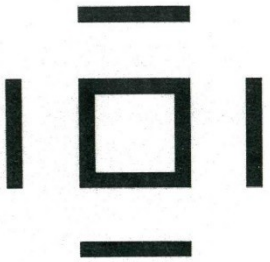

Cut out along dotted lines
