

**FOR IMMEDIATE RELEASE**

## Integrated Gastroenterology Consultants Joins the Suite Life Network

Integrated Gastroenterology Consultants (IGIC) announced today that its ambulatory infusion center has joined the Suite Life Network, a growing platform of community-based infusion centers across Massachusetts and Rhode Island.

Through this collaboration, Suite Life Health & Wellness will provide management services and clinical staffing, under physician oversight at Integrated Gastroenterology Consultants (IGIC). IGIC remains an independent physician practice and continues to oversee all clinical care and payor contracting.

“This collaboration allows us to enhance how infusion care is delivered to our patients while preserving full clinical independence,” said **Nitin Aggarwal, MD**, Co-Medical Director of Infusion Services for Integrated Gastroenterology Consultants. “Suite Life’s operational expertise and team support allow our physicians and staff to remain focused on delivering excellent care in a community-based setting.”

**Bernard F. Lambrese**, CEO of Suite Life Health & Wellness, added, “We are pleased to partner with Integrated Gastroenterology Consultants, a leading independent physician group. By combining their clinical expertise with Suite Life’s management capabilities, we are expanding access to cost-effective infusion care for patients across Greater Lowell and the Merrimack Valley.”

The Suite Life Network partners with independent physician practices to improve access, support efficient operations, and deliver infusion services in high-quality outpatient settings.
