AGNES Ultra

TARGETED RADIOFREQUENCY

WHY PATIENTS LOVE AGNES Ultra

Because it delivers real **results—without the surgery**. AGNES Ultra combines four unique technologies into one streamlined platform, giving providers the tools to sculpt, refine, and rejuvenate with precision. From targeted areas of the face, to fine lines and uneven texture, AGNES Ultra targets your biggest concerns with **minimal discomfort** and little to no downtime. Treatments are fully customized, so you get **natural-looking results** that leave you feeling refreshed—not overdone.

Ultra UNIQUE

TARGETED DELIVERY

RF energy is confined to custom-designed microblade tips — not broadcast across the entire face.

NOT JUST MICRONEEDLING

AGNES Ultra offers four technologies, not just one—including options for refining, resurfacing, and targeted treatment.

CUSTOMIZABLE TO YOU

Multiple handpieces and tip configurations let your provider personalize treatment to your skin, goals, and anatomy.

Ultra BENEFICIAL

NON-SURGICAL, NATURAL-LOOKING RESULTS

No scalpels, no stitches - just refined
and refreshed outcomes.

MINIMAL DOWNTIME

Return to normal activities quickly with
little to no disruption.

TARGETED TREATMENT AREAS

Focused energy reaches the root of the
concern for lasting improvement.

SAFE FOR A RANGE OF SKIN TYPES

Designed with safety and comfort in mind,
even for delicate or hard-to-treat areas.

90%

Patient satisfaction with
treatment outcomes¹

¹through independent study

Similar to your favorite
injectable treatment,
AGNES Ultra offers
mini cannulas to
deliver results.

TARGETED RF ENERGY

THE SCIENCE BEHIND

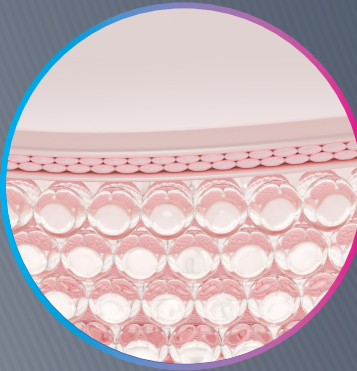

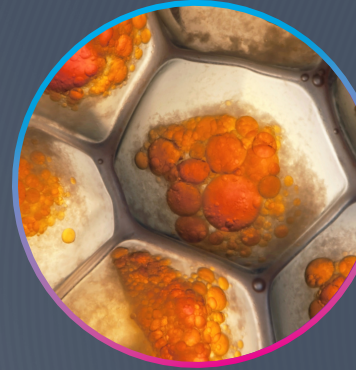

AGNES Ultra

AGNES Ultra is engineered for precision — combining four advanced handpieces and proprietary microblade technology to target specific layers of the skin and underlying tissue. Each handpiece is designed for a unique function: from the appearance of improved contours to skin resurfacing and collagen stimulation.

Unlike traditional needles, AGNES Ultra uses polygonal microblades that control energy direction and depth, allowing your provider to treat only the areas that need it — with greater accuracy and less disruption to surrounding tissue.

TARGET STUBBORN FAT

AGNES Ultra uses focused energy to selectively heat adipose tissue for lasting improvement in even some of the smallest areas.

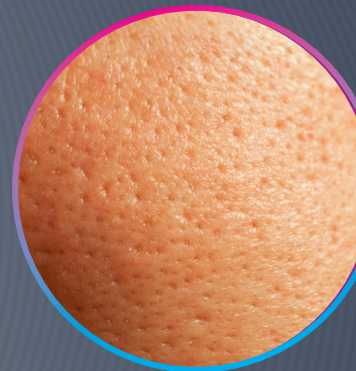

TIGHTEN* SKIN

Controlled energy stimulates collagen deep within the skin helping to tighten*, firm*, and lift* without damaging the surface or requiring surgery.

IMPROVE SKIN QUALITY

By boosting circulation and promoting natural cellular turnover, AGNES Ultra improves tone, texture, and radiance —especially in areas with fine lines or enlarged pores.
