A Partnership for Your Long-Term Health

Understanding Your Chronic Care Management (CCM) Plan

A guide for patients and caregivers regarding Medicare CCM enrollment.

What is Chronic Care Management?

CCM is a service designed to support you between appointments. It provides continuous care to manage your ongoing health needs, rather than just treating you when you are sick.

Goal: To prevent worsening health, hospitalization, or functional decline.

Who Qualifies for This Care?

Two or More Chronic Conditions.

Long-Term Duration.

Conditions expected to last at least 12 months or until death.

Health Risk.

Conditions that place you at risk of decline or hospitalization.

If you are reading this, you likely meet these specific Medicare criteria.

Your Dedicated Care Services

These services are provided in addition to your regular office visits.

Personalized

Access

Planning & Protection

The Care Plan

Creation and ongoing monitoring of a comprehensive care plan tailored to your specific needs.

Medication Management

Medication management and reconciliation to ensure safety and consistency across all your prescriptions.

Connecting Your Care Team

We handle the coordination with specialists and other providers so you don't have to manage the communication alone.

Time Dedicated to You

At least 20 minutes per month

This is non-face-to-face care management. Our team works on your health records, coordination, and planning even when you aren't in the office.

Includes 24/7 access to care management services.

One Captain at the Wheel

Only one provider can bill Medicare for CCM services each month.

To prevent conflicting care plans and billing errors, you must designate Prestige Medical Group as your primary CCM provider. By signing, you acknowledge this exclusivity.

Understanding the Costs

- Medicare will apply usual Part B cost-sharing.
- Depending on your supplemental coverage, a copay or deductible may apply.
- Note: These services are billed separately because they are provided outside of regular office visits.

You Remain in Control

You may stop CCM services at any time.

Cancellations become effective at the end of the calendar month.

- You also have the right to revoke permission for electronic communication of medical information.

Your Authorization

I agree to receive Chronic Care Management services.

I understand that only one provider may bill for CCM each month.

I understand I may withdraw consent at any time.

I authorize electronic communication of my medical information as needed for care coordination.
