

Developmental and Behavioral Health Support

At Capital Area Pediatrics,

we support children's growth, learning, behavior and emotional well-being in ways beyond their well child care.

From autism evaluations to sleep consulting to anxiety and more - we have services that may offer you and your child extra support.

You must be an existing CAP patient and be referred by your CAP primary provider. Not all patients will qualify for these services.

Please see website for more details.

- In House Therapy
- Parenting Support
- Autism Evaluations
