

Like the hospital systems in our area, and many of the private practices, our mask policy is changing as of Monday, April 17, 2023.

For all staff and all visitors to CAP, ***masks are optional except in the following situations:***

- Staff or visitors > 2yo have any one or more of the following symptoms:
 - fever
 - cough
 - cold
 - sore throat
 - vomiting

Registration and check-in process remains the same. Continue to wait in your car for notification of pre-visit check-in and pre-screening to facilitate your visit with your provider and limit crowds in the waiting room.

If you prefer your healthcare team to wear a mask around your family, please ask as we are happy to do so.
